1 Introduction

1.1 Scope

This document describes how to report transactional sales data using CSV File Upload method on the FAS Sales Reporting application. The document provides guidance on format and data element definitions of the file, interface design, sample file and sample output.

1.2 Authentication

Contractor is required to have an GSA FAS ID account and be a point of contact (Admin rep or IFF Rep or an Authorized negotiator) on the Contract in order for the FAS Sales Reporting application to authenticate and authorize the Contractor to report sales. After logging into the application with a valid MFA Okta account, users can upload the CSV File to report transactional sales data.

2 CSV File Upload

2.1 Scope

The scope of this document is to define the format of the CSV file, of its data elements and how to upload the file in the application. (<https://srp.fas.gsa.gov>).

2.2 Report Sales Data through CSV File

Users can upload transactional sales data into the FAS Sales Reporting application using a CSV spreadsheet with a special character delimited file. A pipe character (|) has been used for delimiting the data. CSV File contains the same required fields as those found in the Report data by Form Entry page. The Report data by File upload feature allows you to enter data for multiple contracts at once.

2.3 Instructions for preparing sales data using CSV File Format

For a successful and timely submission of sales data by uploading CSV file please follow these step by step instructions:

1. Save an empty file template to your computer with **.csv** extension.
2. Enter your contract number(s) in column A for each line item.
3. Enter your sales data in the 16 Columns provided for MAS contracts or 17 Columns for GWAC or MAC contracts. Columns that are required fields are marked with Asterisk. See Definition of Data Fields below for explanation of each column. Follow the same order by using pipe delimiter ('|').

- a. Example MAS Header:

Contract/BPA Number*|Order Number/PIID*|Description of Deliverable*|Manufacturer Name|Manufacturer Part Number|Unit Measure*|Quantity of Item Sold*|Universal Product Code|SIN Number*|Price Paid per Unit (US\$)*|Total Price (US\$)*|Non-Federal Entity*|Federal Customer|Order Date|Ship Date|Zip Code Shipped To

b. Example GWAC/MAC Header:

Contract Number *|Invoice Number *|Paid Date *|Task Order *|Line ID*|SIN/CLIN *|Knowledge/Skill Level|Description of Deliverable*|Unit Measure*|Quantity of Items Sold*|Unit Price (US\$)*|Total Price (US\$)*|Line Item Location*|Purchase Line Fee Category*|Security Clearance Level*|Applicable Labor Law|Final Invoice Check

4. Once sales data (all orders and line items for one or more Contracts) is entered into the spreadsheet, save the file to your local drive.
5. Login to the Contractor side of the SRP application via <https://srp.fas.gsa.gov> and navigate to **Home > Report Data via File Upload** option.
6. Once on the **Report Data via File Upload** page, choose the appropriate reporting period.
7. Then browse for the saved file in Step 4 and click on **Submit**.
8. When you click on **Submit'** you will be prompted to certify that all data being submitted is 'True and accurate'. If you agree, accept and click 'Submit'. If not, go back and make necessary changes to the CSV file.

2.3.1 Reporting Return Line Items (MAS Contracts Only)

1. Enter relevant information for all required fields:
 - a. **MAS Contracts:** (Contract Number, Order Number, Description of Deliverable, Unit of Measure, Quantity of Item Sold, SIN Number, Unit Price, Total Price and Non-Federal Entity).
2. Under Unit Measure specify “RTN”
3. Under Quantity of Items Sold, specify the number of items returned. This should be a negative value.
4. Under Price Paid per Unit (US\$), enter the unit price of the items returned. This should be a positive US\$ amount.
5. Under Total Price (US\$), enter the Total Price derived from Quantity of Items Sold * Price Paid per Unit (US\$). This should be a negative value.

2.3.2 Reporting Discount Line Items (MAS Contracts Only)

1. Enter relevant information for all required fields:
 - a. **MAS Contracts:** (Contract Number, Order Number, Description of Deliverable, Unit of Measure, Quantity of Item Sold, SIN Number, Unit Price, Total Price and Non-Federal Entity).
2. Under Unit Measure specify either “VD” for Volume Discount or “PPD” for Prompt Payment Discount.
3. Under Quantity of Items Sold, specify the number of discounts applied to a given order. This should be a negative value.
4. Under Price Paid per Unit (US\$), enter the dollar amount of the discount. This should be a positive US\$ amount.
5. Under Total Price (US\$) enter the Total Price derived from Quantity of Items Sold * Price Paid per Unit (US\$). This should be a negative value.

2.6 Sample Rejected Messages

By clicking on the information (i) hyperlink on rejected status, users can see detailed error messages.

Scenario 1: If you choose a reporting period which was not current (or valid) for the saved contract, then you will see a rejected message similar to one of the ones shown below (depending on whether reporting MAS or GWAC/MAC sales).

Invalid Reporting period. Contract Number: GS14F0049M - Transactional sales data was not reported for a previous reporting period. Please complete reporting for previous reporting periods before reporting for the selected reporting period.

or

Previous reporting period has not been fully submitted for Contract

or

Invalid reporting period 03-2022 for contract VSCNONMAS

Scenario 2: Large data file uploads could take more than a few minutes. The file will be accepted and processed asynchronously. Therefore, to appropriately queue the files and prevent multiple file uploads for the same reporting period the system will put the file uploaded in an “In-Progress” status and lock the reporting period until the processing is complete. If a user tries to upload another file during this status, you will see a rejected message similar to the one shown below.

TDR Sales Data was IN-PROGRESS for Contract Number: GS35F0258L and Reporting Period 01-2015. Please wait till it gets processed.

Scenario 3: If the total price value (product of Quantity and Unit price) is invalid according to other entered values you will see a rejected message similar to the one shown below.

Row No 3: The Total Price is invalid. Based on the values you entered for 'Quantity of Item Sold' and 'Price Paid per Unit', the system expects a total price of X * X. Please adjust your values and resubmit..

Scenario 4: If you try to upload sales data for a Contract not assigned to the user you will see a rejected message similar to the one shown below.

Contract Number: GS14F0049MM is not found. Please check the contract number and submit again

Scenario 5: If you already reported data for a particular reporting period but trying to report again you will see a rejected message similar to the one shown below.

Contract Number: GS35F0661S - Transactional sales data was already reported for selected Reporting Period.

or

Cannot report data for already reported Task Order "gwacdemo"

Scenario 6: If you do not include any required fields you will see a rejected message similar to the one shown below.

Row No 3: Description of Deliverable is required.

or

Required field "Description of Deliverable" cannot be empty for CLIN XXX

Scenario 7: If you report a discount but do not have a related sales line item for the same order number then you will see the following error message. Ensure your discount line item always has a corresponding sales line item.

Row No 3: Discount amount cannot be reported for an order where no sales have been reported.
